

Axle mounted gearboxes below 160km/h

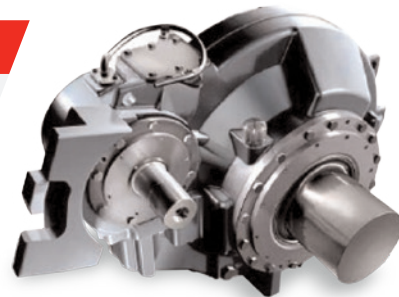

Double reduction helical gearbox axle mounted

- Maximum speed: 100KPH
- Maximum axle load: 16t
- Double reduction: 6.8:1
- Input traction torque: 1400Nm
- Flexible input coupling

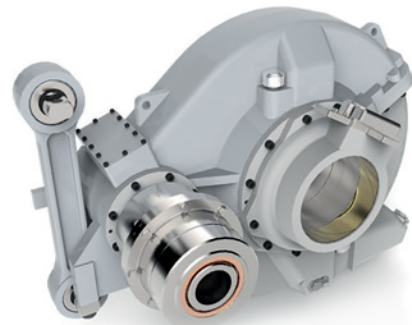

Single reduction helical gearbox axle mounted

- Maximum speed: 130KPH
- Maximum axle load: 16t
- Single reduction: 5.4:1
- Input traction torque: 1640Nm
- Flexible input coupling
- Integrated speed sensing

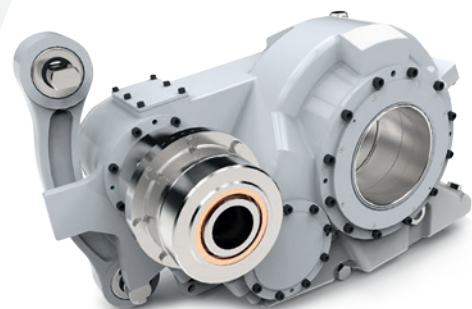

Single reduction helical gearbox axle mounted

- Maximum speed: 132KPH
- Maximum axle load: 19.8t
- Single reduction: 7.07:1
- Input traction torque: 2000Nm
- Integrated mounting for earth return unit
- Flexible input coupling

Double reduction helical gearbox axle mounted

- Maximum speed: 140KPH
- Maximum axle load: 16t
- Double reduction: 5.5:1
- Input traction torque: 2300Nm
- Flexible input and output couplings

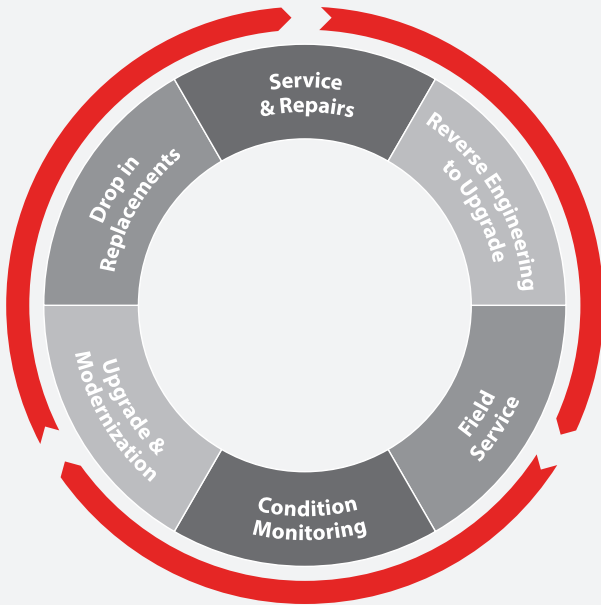

Geared for service

From the moment you engage with David Brown Santasalo, our dedicated team of experts is there for the lifetime of your gearbox. We pride ourselves on developing close relationships with our customers to the point that we understand the pressure on equipment and personnel.

Our team is there to ensure maximum productivity and efficiency and will respond rapidly with whatever you need, whether it's a technical proposal, or onsite repair and maintenance. Together we will create the best asset management strategy to help you maximize product availability and reliability, whilst minimizing total cost of ownership.

With dedicated teams based around the world, we can offer vital support for any gearbox on a global 24/7 basis.
